WESTCHESTER MODULAR HOMES BUILDS 8000th HOME

Westchester Modular and Squash Meadows Finalize Home on Martha's Vineyard

Wingdale, NY January 24, 2024: Westchester Modular Homes (WMH), a premier builder of custom modular homes is celebrating the finalization of its 8000th home built. The home, a 4,600 square foot modern colonial style home with six bedrooms and five and a half baths was delivered to Martha's Vineyard this past June – with finishing interior details completed this past month. Squash Meadows, a WMH certified builder worked closely with the client to create this special vacation residence.

John Colucci, Vice President of Sales & Marketing states, "Since 1986 Westchester Modular Homes has been building premium homes with the greatest efficiency and quality. Our employee-owned structure means our staff is fully invested in delivering the best client experience and most high-quality homes. We are excited to celebrate this important milestone with this gorgeous home which exemplifies all that we do."

As a vacation home on Martha's Vineyard, the home was delivered by barge. Westchester Modular has built a number of homes on the islands and have the team to ensure a smooth process for delivery over water by barge.

John notes, "Being able to deliver premium quality with speed and efficiency – no matter where the locations, is something we pride ourselves on, and this home was no different."

The home was built in seven days in the quality-controlled factory environment in Wingdale, NY. Like all WMH modular homes, the client was able to visualize the design process using the WMH state-of-the-art design center. Squash Meadow worked closely with the client to secure permits and walk through the building process. The final step, setting the home on the property, took two days.

About Westchester Modular Homes, Inc.

(WMH) is a leading manufacturer of custom-built, energy-efficient modular homes. Headquartered in Wingdale, New York, the company was established over 35 years ago in 1986, and became an Employee-Owned Company in January 2000. WMH has built over 8,000 homes.

A pioneer in modular housing, WMH evolved into an award-winning industry leader through innovation in design, customization, superior craftsmanship and green building practices. It offers over 60 home designs, all of which can be customized. The company markets homes through a network of independent builders in a nine-state area including Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, Maine, New York, New Jersey and Pennsylvania.
